"Your Complete Maintenance Solution"

MUD BOSS

ELECTRIC BOOT CLEANER

CPR Fabrication's Mud Boss Electric Boot Cleaner is an easy-to-use solution with a sturdy handle and dead man switch for safe operation, this combination allows the user to easily maintain their balance and the ability to promptly switch off the cleaner after boot cleaning. The Mud Boss Electric Boot cleaner is fully wired up and ready for a 240V electric plug and boasts a waterproof rating of IP66. The high waterproof rating of IP66 means you can easily clean your Mud Boss with a medium-pressure hose without risking damage to the electronics.

Ideal for a wide range of industries including mining, agriculture, construction, food processing, dairy, poultry farms, quarries, and more. The Mud Boss Electric Boot Cleaner offers a cost-effective and durable solution to combat the challenges posed by mud transfer. It effectively prevents issues like dirty floors, slip hazards, and dust accumulation caused by dried mud.

PART REF: CPR-F-040
